Envisioning Regional Work

Where do you see opportunities for work at the regional or cross-community level?

Regional Idea 1: Imagine Possibilities

What's most exciting about this idea? If this succeeded wildly, what might the region look like in 5 years? Who else would love this idea—and how could they help bring it to life?

Regional Idea 1: Start a Spark

What's a small, tangible step we could take to move this forward? Where could we test this idea (with low risk, high learning)? What would need to be true for this to work well?

Regional Idea 1: Collaborate & Expand

Who do we need to talk to, loop in, or learn from? Who's already doing work that connects to this? How could this idea create space for more equity, creativity, or impact?
